

To: Michael Soloway

Hi Mike

I met you at the National Accordion Convention in Dallas and had a "lesson" with you. I have played the 1x, 3x, and bought the 4x when it came out.

One of the things that we addressed in that lesson was the EQ setting. We went through my accordion and changed them. You also showed me how to change, adjust sounds using the arranger (editor) on the computer.

Since then it has been a "hey day" (in a fun way!). I noticed the changes in the sounds. But when other listeners start commenting is where the real results are. I play regularly for the San Antonio Accordion Club. Last night was the first time I played since April. I got some very favorable comments from people that have watched me through the ages. I was so very proud of the sounds.

There was even a couple that was considering the Roland 4x. They commented on how great the sounds were.

Just wanted you to know that you...."changed my life"!!! My "Accordion Life" that is!!! That one hour with you made such a big difference in my accordion sounds.

Thanks so much for sharing your expertise! I am signed up for the Symposium in November.....See ya there!!
